QUESITI PROVA SCRITTA

ELENCO 1

A researcher, who obtained a PhD in "Statistical Sciences" on 20 June 2016 and subsequently carried out her activity at a department of the University of Padua as a research grant holder (*titolare di assegno di ricerca*) would like to enrich her CV by contributing to relevant research and broadening her scientific network in Italy and abroad.

If you had to guide her, for which competitive funding opportunities would you suggest she applies?

According to the European Commission, Open Science consists in the sharing of knowledge, data and tools as early as possible in the research and innovation (R&I) process, in open collaboration with all relevant knowledge actors. Please elaborate this concept and provide examples of Open Science practices that may apply to the SH – Social Sciences and Humanities domain.

ELENCO 2

A researcher wishes to coordinate a collaborative proposal under Cluster 2 – Culture, Creativity and Inclusive Society of the Horizon Europe Framework Programme. What suggestions would you give to organize the work, also in collaboration with partners, and to effectively develop the project idea within the sections required by the application form?

Horizon Europe aims at fully integrating Social Sciences and Humanities (SSH) in each of its pillars. Please elaborate this concept.

ELENCO 3

A researcher obtained a PhD in "Philosophy" on 20 June 2020 and subsequently carried out his activity as a research grant holder (*titolare di assegno di ricerca*) at a department of the University of Padua. He would now like to enrich his CV by contributing to relevant research and by developing his scientific network in Italy and abroad.

If you had to guide him, for which competitive funding opportunities would you suggest he applies?

What are the main features of a Communication, Dissemination & Exploitation Plan in the framework of a Horizon Europe proposal? Please provide examples of good practices for each of the above-mentioned activities with specific reference to the SH - Social Sciences and Humanities domain.
